

Mortgages: What You Need to Know

The Business and Professional Women of Bernardsville
invite you to

A Financial Presentation

By David Muti, JD, RMA

A mortgage is one of the most important financial decisions that people will ever make. The type of mortgage you choose will have a direct impact on when you can retire and with how much. Whether you are contemplating buying your first house, a seasoned real estate investor or a financial professional, this presentation will provide you with knowledge that you can start to use right away. Join David Muti, author, trainer, speaker and co-founder and President of Forgotten Equity, Inc., who will cover such topics as how to prepare to get a better mortgage, how to choose the right mortgage for you, the importance of an annual mortgage review to ensure you are optimizing your cash flow, how to protect yourself against identity theft, and how to get your Social Security number on the do not call list to stop unwanted junk mail and phone calls.
